

Blue Bus - ATOS

Team 6 (ATOS4)

27 November 2015

Ali Aliyev

Yanwen Feng

During the last two weeks, we did not meet with our client since we did not make much progress on our prototype. Instead, we focused on our project website. Ali made our well designed website and wrote about Background&Information and Contact (method) of the project that we work on. Contents of our project include

- requirements
- research
- prototype
- user interface
- testing
- progress
- plan

We have finished our requirements, prototype and user interface, but have not uploaded it to the website in case of any later change. Yanwen uploaded the research part and Ali uploaded the progress part which is composed of bi-weekly reports.

We plan to meet with our client in the mid of December to show our project website and video about it.
