COMP0016 Bi-weekly Report

Patrick Wu and Yinrui Hu

27 March 2020

1 Progress

Over the past 2 weeks, our team have worked together to finish all Must, Should and Could haves requirments on the MoSCoW requirement list. We added unit tests and integration tests to our code and archived over 90% code coverage. We are now able deploy the application on different platforms. e,g iPads and iPhones. See Figure 1 below for code coverage. See Figure 2 below for responsive design.

2 Evaluation

As mentioned before we've implemented all the Must, Should and Could requirements.

Finally, we would like to say thank you to all members in the X5GON Team. Thank you for taking the time to meet with us in the past 10 months to guide us to finish the this application. It's awesome to connect with you and learn about how enthusiastic you are about this project. That has definitely influenced our team in the long run. It's been our absolute pleasure to work with you.
