Ask Bob skills viewer web app - user manual

The skills viewer app is for visually inspecting the skills available on an Ask Bob voice assistant server. It allows users to enter the URL of the `/skills` endpoint, which provides information about the plugins installed on the server.

Sort By	
Plugins	-
Url Add AskBob skills endpoint URL	
Cannot read from url	

Entering endpoint

Enter the skills endpoint URL in the text field under the URL label.

Plugins	-
Url	
http://askbob.jezz.me/skills	
Cannot read from url	

If you are using the skills viewer deployed on a web server with HTTPS, the Ask Bob server must also have HTTPS to meet browser security policies. Also, ensure that the endpoint URL ends in /skills, as is typical on standard Ask Bob installations.
